Keywords Index

A			
accidental falls	15:301	cognitive test	15:174
acute coronary syndrome	15:154	cohort study	15:238
acute ischemic stroke	15:67	colon cancer	15:340
acute phase	15:7	community	15:123, 324
adherence	15:97	community-acquired pneumonia	15:73
adipocyte fatty acid binding protein	15:201	community-dwelling	15:39
adipokine	15:2	community-dwelling elderly	15:34
age	15:272	complication	15:78, 188
aged	15:133, 301	comprehensive geriatric assessment	15:12, 335
age-friendly	15:58	computerized cognitive training	15:90
age-friendly health service recognition	15:58	coronary artery disease (CAD)	15:272
aging	15:30, 84, 160, 165, 330, 367	coronavirus infections	15:133
agitation	15:255	corticosteroids	15:78
albumin	15:103	cosmetic products	15:287
Alzheimer disease	15:49, 255	COVID-19	15:309
Alzheimer's disease	15:107, 385		
anterior circulation	15:67	D	
anterior dislocation	15:180	decision-making	15:340
antidepressants	15:292	delirium	15:25, 45, 150, 207
antipsychotic agents	15:292	dementia	15:107, 123, 174, 278, 292, 385
aortic stiffness	15:201	dementia care	15:107
appendicitis	15:281	dependence	15:335
appendicular lean soft tissue	15:377	depression	15:233
atherosclerosis	15:361	dexmedetomidine	15:207
attention	15:183	diabetes	15:128
		disability	15:123, 128
		drug compliance	15:97
		dual task	15:53
B			
Babinski sign	15:170	E	
bCAM	15:150	elderly	15:12, 97, 117, 128, 216, 221, 309, 345
blood lipid	15:284		
body impedance analysis	15:266	elderly inpatients	15:233
bone fracture	15:67, 238	elderly patient	15:82, 111
brain activity	15:53	emergency department	15:145, 150
breast cancer	15:12	emergency room	15:350
bullous pemphigoid	15:78	endotracheal intubation	15:177
		environment	15:117
C		executive function	15:183
cardiac fibrosis	15:2	exercise	15:183, 292
cardiovascular disease	15:284, 361	extracorporeal membrane oxygenation	15:177
carotid-femoral pulse wave velocity	15:201	ezetimibe	15:354
cerebral embolism and thrombosis	15:170		
chronic disease	15:97	F	
circadian rhythm	15:345	fall prevention	15:34
circle of Willis	15:330	fat embolism syndrome	15:170
clinical features	15:78	FIM	15:103
cognition	15:30, 90, 212, 247	frailty	15:145
cognitive behavioral therapy	15:292	free thyroxine (FT4)	15:272
cognitive dysfunction	15:212	free triiodothyronine (FT3)	15:272
cognitive function	15:174		
cognitive stimulation	15:247

primary care	15:58	stroke	15:103
primary health centers	15:58	structural equation modeling	15:34
prognosis	15:309	ST-segment elevation myocardial infarction	15:195
prolonged mechanical ventilation	15:345	subclavian artery	15:382
public health	15:49, 117	subcutaneous hemorrhage	15:278
pulmonary function	15:228, 319	systematic review	15:188
		S100 proteins	15:207
Q		T	
qualitative research	15:133	task performance and analysis	15:301
quality of life	15:16, 117, 128, 314	telerehabilitation	15:212
		THA	15:180
R		Thailand	15:324
red cells	15:160	the elderly	15:281
rehabilitation	15:103	the elderly population	15:16
resident	15:138	thrombectomy	15:64
resilience	15:367	thyroid stimulating hormone (TSH)	15:272
restrictive pattern	15:228	time-of-flight MR angiography	15:330
restrictive spirometry pattern	15:319	trabeculectomy	15:238
right-sided colon cancer	15:281	tracheal rupture	15:177
risk factors	15:25, 260, 284, 324	triage	15:64
		triglyceride	15:361
risk profiling	15:12	type 2 diabetes mellitus	15:201
road traffic accident	15:216		
rural health	15:49	U	
		UDI-6	15:314
S		undernutrition	15:266
sarcopenia	15:319, 324, 377	unfavorable outcome	15:67
secondary bleeding	15:82	uric acid	15:103
secondary infection	15:309	urinary incontinence	15:314
secondary prevention	15:284		
sedentary behavior	15:84	V	
self-management	15:372	vascular closure device	15:382
serum albumin	15:7		
simulation-based education	15:138	W	
skeletal muscle mass index	15:319	walking speed	15:183
sleep quality	15:345	Whooley questions	15:233
smoke	15:154	workshop	15:138
social cognitive theory	15:221		
social support	15:372	Z	
spontaneous rupture	15:82	Zung Self-rating Depression Scale	15:233
