- A Better Strategy for Depression Screening in Chinese Elderly Inpatients 15:233
- A Case Report: An Elderly Right-Sided Colon Cancer Patient with Acute Appendicitis 15:281
- A Pilot Study to Examine the Feasibility of Personalizing Treatment Options of Elderly Breast Cancer Patients through Individual Risk Profiling 15:12
- A Reliability of the Mobile Screening Test System for Mild Cognitive Impairment Using Telehealth in Rural Settings with Older Adults 15:212
- Acute Colonic Pseudo-Obstruction (Ogilvie's Syndrome) in 83-Year-Old Male 15:389
- Aging at High Altitude: A Study of the Combined Effect of Aging and Altitude on Hemoglobin and Red Cell Parameters 15:160
- Aging Does Not Affect the Outcome of Percutaneous Nephrolithotomy 15:165
- Albumin Level and Physical Integrity 15:1
- An Investigation into the Home Transformation Needs of Older People with Dementia in China 15:123
- Association between the Severity of Glaucoma and Risk of Fractures: A Nationwide Cohort Study 15:238
- Association of Mild Cognitive Impairment and Muscle Mass/Strength in Community-Dwelling Older Chinese 15:39
- Association of Serum Albumin Levels at Admission on Physical Function and Walking Capacity in Patients with Acute Illness 15:7

B

- Beyond the Role of p53 in Prognostic Biomarker and Therapeutic Target: Modulator of Anti-Tumor Immunity 15:187
- Bilateral Erythematous-Edematous Plaques on Armpits 15:287
- Biopsychosocial Needs of Elderly Individuals in Prolonged Social Isolation During the COVID-19 Outbreak: A Qualitative Study 15:133

C

- Can Frailty Tools Predict the Mortality, Readmission, and Hospitalization of Geriatric Emergency Attenders? 15:145
- Character and Outcome of Geriatric Patients with Do-Not-Resuscitate Orders after Receiving Non-invasive Ventilation in the Emergency Room 15:350
- Characteristics and Secondary Infections among Elderly Patients with COVID-19 15:309
- Clinical Features between Young and Elderly Patients with Bullous Pemphigoid: An Age-Matched Case Control Retrospective Study 15:78
- Coexistence of Acute Ischemic Stroke and Acute Bone Fracture during Hospitalization 15:67
- Cognition-Specific Computerized Cognitive Training in Older Adults with Mild Cognitive Impairment: A Systematic Review and Meta-Analysis 15:90
- Constructing a Risk Prediction Model for Postoperative Pulmonary Infection in Elderly Patients with Lung Cancer 15:111
- Correlation between Serum FGF21 and Cognition in Men and Women Over 60 Years of Age 15:30
- Current Status and Residual Risks of the Patients with Atherosclerotic Cardiovascular Disease in Taiwan – Data from the T-SPARCLE Study 15:284

D

- Delirium in Patient with Hip Fracture is Related High Mortality: A National Cohort Study 15:45
- Development of an Age-Friendly Health Service Recognition Framework for Primary Health Centers in Taiwan 15:58
- Does Living in Rural Areas Impact the Diagnostic Prevalence of Alzheimer's Disease and Related Disorders? The Cases of Arkansas and Louisiana 15:49
- Effect of Multicomponent Dual-Task Exercise Program to Gait Performance, Memory and Information Processing Speed in Older Community-Dwellers 15:183

E

- Effect of Negative Life Events and Resilience on Health Status of Older Adults with Possible Sarcopenia: A Qualitative Research 15:367
- Effectiveness of Geriatric Assessment in Predicting Postoperative Morbidity after Laparoscopic Surgery in Older Patients: A Systematic Review 15:188
- Effects of Dexmedetomidine on the Incidence of Postoperative Delirium and Plasma S-100 β Protein Levels Following Hip Surgery in the Elderly Population 15:207
- Effects of Exercise on Myocardial Damage and Heart Failure Due to Hypoxia Induced by Obstructive Sleep Apnea 15:2

Effects of Long-Term Rehabilitation on Functional Independence Measures and the Elucidation of Novel Prognostic Factors in Patients with Post-Stroke	15:103
Elderly Man with Left Leg Pain	15:186
Equipment-Free Fall-Risk Assessments for the Functionally Independent Elderly: A Systematic Review and Meta-Analysis	15:301
Excessive Pelvic Incidence Related Anterior Dislocation of Posterior-Approached Total Hip Arthroplasty. A Rare Case Report	15:180
Exploration on the Status of Home Health Care Cases and Its One-Year Prognosis	15:251
F	
Fasting Blood Interleukin-1 β and Interleukin-6 Levels as Predictors of Agitation in Patients with Alzheimer's Disease	15:255
Fasting Triglycerides is a Risk Factor for Cardiovascular Event in T-SPARCLE Registry in Taiwan	15:361
