Keywords Index

A		COVID-19	17:35, 49, 119, 167, 172, 177, 183, 258
accidental falls	17:99		
activities of daily living	17:258		
acute kidney injury	17:65	critical care	17:124
age shock index	17:177	critical care outcomes	17:237
aged	17:2, 13, 19, 35, 39, 44, 49, 144, 157, 167, 172, 212, 232, 243	critically ill	17:237
		cross-sectional	17:29
ageism	17:144	D	
aging	17:25, 29, 99, 290	dementia	17:19, 25
Alzheimer dementia	17:110	denosumab	17:275
anesthesia, inhalation	17:280	depression	17:162, 167, 290
anesthesia, intravenous	17:212	discharge planning	17:226
anterior to psoas	17:130	diverticulum, colon	17:204
anti-RANKL	17:275	drug-induced liver injury	17:295
anxiety	17:114		
arthroscopy	17:280	E	
atrial fibrillation	17:141	embolic protection devices	17:74
		emergency departments	17:177
B		endovascular procedures	17:65, 74
back pain	17:157	end-stage renal disease	17:69
bacteremia	17:201	Epstein-Barr virus	17:89
biomarkers	17:69, 92	equine-assisted therapy	17:25
biopsy	17:204	essential thrombocythemia	17:247
blended learning	17:124	exercise	17:82
blowfish sign	17:189	eye movements	17:99
body weight	17:19		
brachial plexus blocks	17:280	F	
breakfast	17:286	falls	17:149
		famotidine	17:183
C		fasting	17:286
calreticulin	17:247	female	17:44
cardiopulmonary resuscitation	17:13	frail elderly	17:157
cardiovascular disease	17:263	frailty	17:49, 59, 149, 167
cardiovascular diseases	17:275	frequency of going out	17:119
cardiovascular surgical procedures	17:212	frontal cerebral blood flow	17:99
carotid stenosis	17:74		
CBT	17:130	G	
cerebrovascular disorders	17:162	gait	17:25
chemoradiotherapy	17:254	gastric emptying	17:286
chimeric antigen receptor T-cell	17:89	geriatric patients	17:254
cognition	17:212	geriatric syndrome	17:149
cohort studies	17:92	geriatrics	17:69, 195, 232
colonic polyps	17:204	glaucoma	17:54
colonoscopy	17:204		
community support	17:290	H	
community-dwelling older adults	17:119	hand strength	17:172
conservative treatment	17:135	health behavior	17:29
contributing factors	17:189	hematopoietic malignancies	17:89
core competencies	17:124	hemoglobins	17:92
coronary artery disease	17:39	hip fracture	17:35
		hippocampal	17:110

histamine H2 antagonists	17:183	omentin-1	17:39
home-based intervention	17:59	oral health	17:19
hospitalisation	17:172	osteoarthritis	17:269
hypertension, pulmonary	17:141	osteomyelitis	17:77
I		osteoporosis	17:275
ileus	17:135	osteosarcopenia	17:149
immunotherapy	17:89	out-of-hospital cardiac arrest	17:13
infodemic	17:114	P	
interbody fusion	17:130	patient readmission	17:2
internship and residency	17:124	phase angle	17:105
interpersonal relations	17:290	physical activity	17:119
isavuconazole	17:295	physical fitness	17:258
ischemic stroke	17:9	pneumonia	17:2
J		posaconazole	17:295
Janus kinase	2 17:247	postearthquake	17:189
Japan	17:49	postoperative cognitive complications	17:212
Japanese	17:144	postural balance	17:25
K		prediction	17:177
KIT	17:153	protein kinase inhibitors	17:153
knee	17:269	psychological factors	17:82
known atrial fibrillation	17:9	psychological intervention	17:82
L		R	
leukemia, myeloid, acute	17:243	resistance training	17:269
locally advanced lung cancer	17:254	respiratory aspiration of gastric contents	17:286
locomotive syndrome	17:105	retrospective studies	17:263
long-term care	17:162, 226	risk factors	17:220
low back pain	17:119, 157	rural population	17:29
lupus erythematosus, systemic	17:201	S	
M		<i>Salmonella</i>	17:201
malnutrition	17:105, 149, 162	sarcopenia	17:65, 105, 162, 172
mastocytosis	17:153	SARS-CoV-2	17:183
mental health	17:114	self-perceived health	17:29
meta-analysis	17:2	sense of coherence	17:44
metabolic syndrome	17:263	severity of illness index	17:39
microRNAs	17:247	shock	17:232
minimally invasive surgical procedures	17:195	shock index	17:177
MI-TLIF	17:130	shoulder	17:280
mortality	17:35, 92	simulation-based education	17:124
mucormycosis	17:295	sLOX-1	17:39
muscle quality	17:59	small intestine	17:135
muscle strength	17:269	social support	17:44
muscles	17:258	somatic symptoms	17:114
mutation	17:247	spinal fusion	17:195
myoinositol	17:110	spine	17:195
N		statins	17:54
N-acetylaspartate	17:110	stereotyping	17:144
neoplasm metastasis	17:77	stomach neoplasms	16:77
non-vitamin K antagonist oral anticoagulant	17:9	survival analysis	17:243
N-terminal pro-brain natriuretic peptide	17:69	systematic review	17:82
NT-proBNP	17:69	systemic	17:153
nursing homes	17:19, 220	T	
O		telangiectasia, hereditary hemorrhagic	17:141
obesity	17:237	telephone intervention	17:226
observer variation	17:269	Thailand	17:44
older adults	17:220	therapeutic effect	17:135
		total knee arthroplasty	17:82
		trauma centers	17:232
		tube feeding	17:135

VII		Keywords Index	
type 2 diabetes mellitus	17:59	venetoclax	17:243
U		visual field progression	17:54
ultrasonography	17:189	vitamin D	17:237
unplanned hospitalization	17:220	W	
unplanned readmission	17:226	walking	17:99, 258
urinary retention	17:280	walking speed	17:157
V		women	17:290
vaccination	17:49		
varicose veins	17:141	2019-nCoV Disease	17:183
vascular access devices	17:74
