Keywords Index

A			
acute ischemic bowel disease	19:160	dementia	19:223, 234
acute kidney injury	19:109	dental implants	19:11
adenocarcinoma	19:286	dentures	19:11
adrenergic beta-antagonists	19:260	depression	19:16, 87, 205
aged	19:33, 45, 50, 81, 141, 166, 185, 228, 244, 249	depressive disorder	19:205
aging	19:136, 153	dialysis	19:198
alpha-synuclein	19:217	dirofilariasis	19:286
angiotensin receptor antagonists	19:109	doxycycline	19:98
angiotensin-converting enzyme inhibitors	19:109	dysfunction	19:239
anticoagulants	19:223	dyslipidemias	19:70
anti-SARS-CoV-2 agents	19:6		
anxiety	19:205	E	
atherosclerosis	19:153	elderly	19:6, 39, 121, 160
atherosclerotic cardiovascular disease (ASCVD)	19:160	emergency medicine	19:166
atrial fibrillation	19:160, 223	emergency shelter	19:50
autophagy	19:172	Enterobacterales	19:189
		European Kidney Function Consortium	19:198
B		exercise	19:178
Baduanjin	19:178	exercise training	19:130
benign prostatic hyperplasia	19:93		
biomarker	19:93	F	
biomarkers	19:217	factor analysis	19:239
body mass index	19:244	femoral neck fractures	19:27
		femoral neck system	19:27
C		foreign bodies	19:185
cancer	19:64	frailty	19:6, 130, 267
CAR T-cell therapy	19:289		
carbapenem	19:189	G	
caregiver burden	19:234	gamma-glutamyltransferase	19:70
cerebrospinal fluid leak	19:255	geriatric dentistry	19:11
chlorides	19:273	geriatrics	19:211, 280
chronic obstructive	19:178	government	19:166
cognition	19:136		
cognitive dysfunction	19:178, 217	H	
colistin	19:189	hand strength	19:81, 249
community	19:239	health promotion	19:166
community health care	19:239	heart failure	19:273
community-acquired pneumonia	19:39	heart failure, systolic	19:260
coping skills	19:280	hematopoietic stem cell transplantation	19:141
coronary artery disease	19:16, 70, 153	hip	19:228
COVID-19	19:6, 50, 98	hip fracture	19:228
critical care	19:211	holistic nursing	19:228
cystatin C	19:198	hospital readmission	19:260
cytokine release syndrome	19:289	hospitalization	19:50
		hyperglycemia	19:211
D		hypothyroidism	19:244
death	19:98	I	
		immunotherapy	19:289
		implant failure	19:27
		incidence	19:75

infective endocarditis	19:121	physical activity	19:130
inflammasomes	19:103	pituitary neoplasms	19:255
inflammation	19:103	pneumonia	19:103
intensive care units	19:273	postoperative complications	19:255
intra-abdominal fat	19:70	pressure injury	19:115
intravascular ultrasonography	19:153	prevalence	19:81
		prognosis	19:205
J		prosthodontics	19:11
jejenum	19:185	proton pump inhibitors	19:39
		psychometrics	19:267
K		pulmonary disease	19:178
kidney diseases	19:267	pulmonary disease, chronic obstructive	19:260
kidney failure	19:109		
knowledge	19:280	Q	
		qualitative study	19:50
L		quality of life	19:87, 228
leukemia	19:289	questionnaires	19:280
lithium	19:55		
lung	19:136	R	
lung nodules	19:286	Rasch analysis	19:234
		related factor	19:75
M		REM sleep behavior disorder	19:23
magnetic field therapy	19:33	renal dialysis	19:109
mantle-cell lymphoma	19:289	reproducibility of results	19:23, 267
mechanism	19:130	resistance training	19:249
metabolic syndrome	19:75		
miR-4428	19:93	S	
mortality	19:16, 98, 115, 147, 160, 198, 260, 273	sarcopenia	19:81, 147, 249
multiple myeloma	19:141	SARS-CoV-2	19:98
muscle strength	19:249	self efficacy	19:87
		self-management	19:280
N		sepsis	19:103, 211
nasogastric tubes	19:39	seroma	19:64
near-infrared	19:136	SGK1/FOXO3a	19:172
negative-pressure wound therapy	19:64	single-balloon enteroscopy	19:185
nerve block	19:45	skull base	19:255
neurofilament proteins	19:217	sleep disorders, intrinsic	19:33
next-generation sequencing	19:189	social support	19:87
nursing care	19:205	spectroscopy	19:136
nursing homes	19:33, 223	spinal fractures	19:45
		<i>Streptococcus suis</i>	19:121
O		stroke	19:75
old adults	19:55	surgical wound infection	19:64
older people	19:239	surveys and questionnaires	19:23
orthopedics	19:172	survival	19:16
osteoclast	19:172		
osteoporosis	19:45, 172	T	
		Taiwan	19:23, 166
P		therapeutic level	19:55
palliative care	19:115, 223	thyroid hormones	19:244
Parkinson disease	19:217	timing	19:16
Parkinsonism	19:55	tocilizumab	19:6
patient readmission	19:64	toxicity	19:55
percutaneous coronary intervention	19:153	treatment outcome	19:141
peripheral arterial disease	19:147		
periprosthetic fractures	19:27	U	
		uncertainty	19:87
		unidimensionality	19:234
